(FIX-FILE
  (LAMBDA (FILE)                                               ; Edited 23-Aug-95 13:01 by jds

    ;; Take a lisp source file, and re-dump it with  aall record declarations (NOT including BLOCKRECORDS) changed so they're compatible with
    ;; Medley 3.0.

    ;; This really only involves marking each record as changed, so the file manager re-dumps the pre-parsed version of the record declaration.
