Glossary

GLOSSARY-1

Index

INDEX-1

1. TEdit selected in the background menu	2-1
2. The TEdit window	2-3
3. Right-button window menu	2-3
4. A TEdit icon	2-4
5. A TEdit window showing the scroll bar	2-5
6. Selected Text	3-2
7. TEdit's Field Filling Feature	3-4
8. The "snap box"	3-7
9. The TEdit command pop-up menu with the Expanded Menu option selected	4-3
10. The TEdit Expanded menu	4-3
11. Put command selected in the Basic Commands menu	4-7
12. Get command selected in the Basic Commands menu	4-8
13. The Include command selected	4-8
14. Selecting the Find command from the Basic Commands menu	4-9
15. The Find prompt	4-9
16. Selecting the Substitute command from the Basic Commands menu	4-10
17. The Basic Commands menu with the Quit command selected	4-10
18. Hardcopy command selected from the window menu	4-11
19. An example of the "Which Printer" menu	4-11
20. Using the Basic Commands Menu to open the Character Looks menu	5-1
21. The Character Looks menu as it appears when first opened	5-2
22. The Character looks menu after doing a Show of text formatted in the font Modern 10 medium regular regular	5-3
23. The Looks command selected in the Basic Commands menu	5-6
24. The Font, Face, and Type Size menus	5-7
25. The Basic Commands menu with Paragraph Formatting selected	6-1
26. The Paragraph Looks menu	6-2
27. Examples of left- and right-justified text	6-3
28. A document with a paragraph extended into the left margin using the Special Locn: command	6-5
29. The Paragraph Looks menu with the left margins set so that the second, and all following lines, of a paragraph will be indented	6-7
30. The Paragraph Looks menu with the margins set to allow the right margin to "float"	6-7
31. The Paragraph Looks menu with the right margin set to extend past the window's right edge	6-8
32. Some tab settings and examples of left, right, and centered tabs	6-9
33. A document using dotted leaders	6-9
34. How the Paragraph Looks menu is set up for the numbered paragraphs above	6-10

35. Copying paragraph looks using the SAME key	6-11
36. After the SAME key is released	6-11
37. Opening the Page Layout menu from the Basic Commands menu	7-1
38. The Page Layout menu	7-2
39. The page type portion of the Page Layout menu	7-2
40. TEdit paper size options showing the default size selected	7-3
41. The middle portion of the Page Layout menu used to specify page margins	7-4
42. The two parts of the Page Layout menu used to specify page numbers	7-5
43. The portion of the Page Layout menu used to specify headings	7-6
44. The part of the Page Layout menu used to specify size and number of columns	7-7
45. How TEdit adjusts the margins and columns	7-8
46. The headers and footers as entered into the TEdit file for this chapter	7-8
47. Heading labels	7-9
48. Gray boxes mark headings in TEdit file	7-10
49. Page Layout and Paragraph Looks menus values for first page	7-11
50. Page Layout and Paragraph Looks menus values for the Other Left pages	7-12
51. Page Layout and Paragraph Looks menus filled out for the Other Right pages	7-13

1. TEdit's abbreviations and their expanded characters	3-5
2. The character looks commands and where they are available	5-5
3. The values of the relevant Paragraph Looks menu's fields for the headings in this chapter	3-5
